

HOYA DIAMOND TINTSM

Choosing the right tint
color has never been easier!

ALL-IN-ONE SOLUTION

HOYA's Diamond Tinted lenses can be used as a sun, sport and every day glasses that are worn both during summer and winter outdoor activities! The colors will also work in combination with all frames as well as with a broad range of HOYA designs and treatments.

HOYA Diamond Tint Function: HOYA Diamond Tint Lenses meet consumer needs in terms of both function and fashion.

BENEFITS:

- ▶ UV Protection for all outdoor activities
- ▶ Clarity and crispness of color are unbeatable – pressurized pore processing prevents fading
- ▶ Tint color won't change when our family of anti-reflective HiVision treatments are added – core color consistency
- ▶ Super HiVision EX3 Anti-Reflective Treatment is recommended with HOYA Diamond Tint

QUALITY, CONSISTENCY & FASHION

COME TOGETHER WITH HOYA'S NEW PURE DIAMOND TINTS

Tinted glasses have become an indispensable part of a person's lifestyle and personality. And with more and more active time being spent outdoors, it is important to have the right protection for your eyes.
